

bigHead B38A cable tyrap loop carbon steel product range

Technical Data Sheet

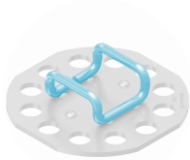

B38A cable tyrap loop

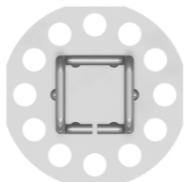

Description

bigHead fastener with a cable tie loop fixing, welded to a Ø 38 mm cropped-circular perforated Head. Suitable for surface bonding applications requiring a mounting/ retention point for cables, conduits, or piping.

Key features

Twin loop fixing

Perforated head design

Carbon steel construction, bright zinc plate finish

Intended usage

Surface bonding, cable tie loop

Alternative configurations may be possible using this product.

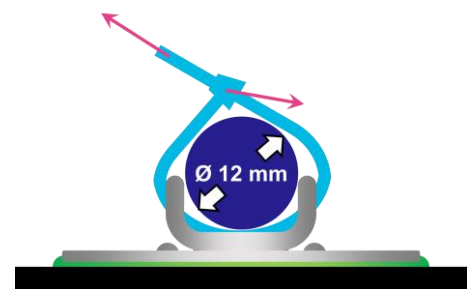

Please contact bigHead for further advice

Fastening functionality

Provides an attachment point for secure seating of cables and pipes, and retention by fitment of cable ties and similar devices.

These products are intended for use with piping, cables, and conduits up to 12 mm in diameter.

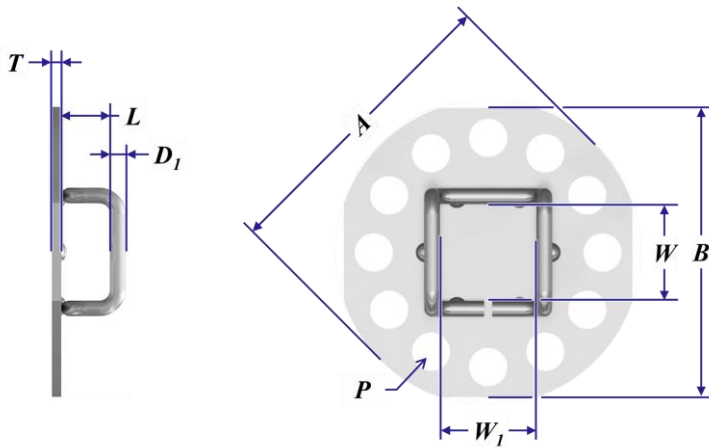

bigHead B38A cable tyrap loop carbon steel product range

Technical Data Sheet

Nominal dimensions (mm)

Product code	D1 (Ø)	L	W	W1	A	B	T	Typical min. weight (g)
B38A CABLETYRAPLOOP	2	6	12	12	38	36	1.2	10

Common to all:

P - 12 perforation holes, equally spaced circular array

Design & application guidance

Loop dimensions (W1 X W)	Cable tie size limitations		Loadability
	Max. cable tie width (mm)	Max. cable tie thickness (mm)	Max. tensile load (kN)
12 X 12	11	5	1.6

Cable tie width

Cable tie thickness

To avoid failure of the bigHead product, do not exceed stated loading limit.

For guidance only. Always determine suitability for the intended application by appropriate applications testing.

bigHead is not liable for failures arising from excessive loading of their products.

Tensile load:

Please contact bigHead for further guidance if you are unsure about these topics.
