Common to all:

P - 12 perforation holes, equally spaced circular array

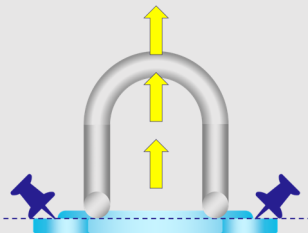

Design & application guidance

Loadability (Weld)

Max. tensile load (kN)

4.0

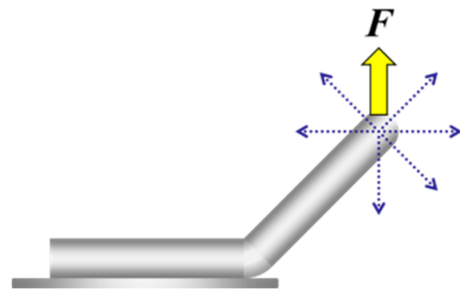

Weld load limit (WLL):

To avoid failure of the bigHead product, do not exceed stated loadability limit.

bigHead is not liable for failures arising from excessive tensile loading of their products.

Loading considerations

Note: weld load limit (WLL) applies only to the indicated loading direction (F). Loadability for this product may vary in different directions. Always determine application suitability by appropriate testing.

Please contact bigHead for further guidance if you are unsure about these topics.
