

**SM5-B38A**

**Description**

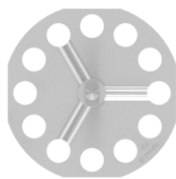

bigHead fastener with a pointed nail fixing, welded to a Ø 38 mm cropped circular perforated Head. Suitable for embedding and surface bonding applications requiring the following:

- Surface bonding onto or through components, with minimal standoff/ clearance height.

**Key features**

Pointed nail fixing

Perforated Head design

316 stainless steel construction, self colour finish

**Intended usage**

Surface bonding, blind spike

Surface bonding, through spike

*Alternative configurations may be possible using this product.*

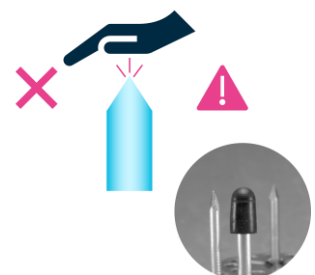

*Please contact bigHead for further advice*

**Fastening functionality**

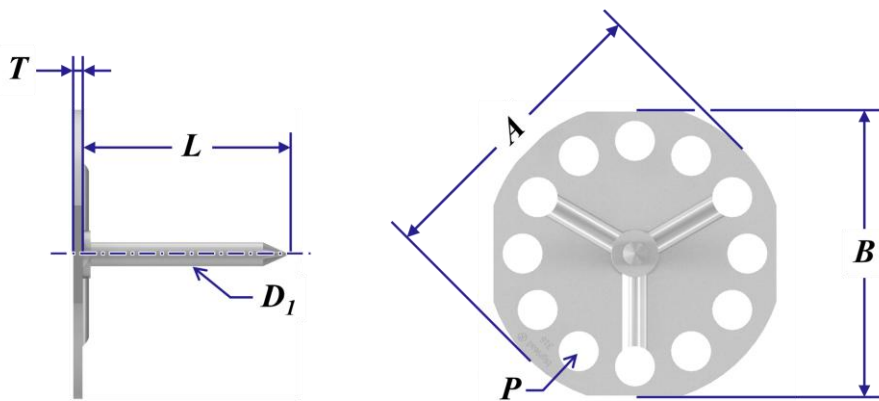

Provides an unthreaded nail attachment point for secure fitment of spring clips and similar secondary devices.

Nail point presents a sharp element hazard. Exercise caution during handling and assembly operations. Consider the use of bigHead® nail caps where necessary.

**Nominal dimensions (mm)**

Product code	D1	A (Ø)	L	T	B	Typical min. weight (g)
SM5-B38A	3	38	Nominal nail length value	1.2	36	10.0

**Common to all:**

P - 12 perforation holes, equally spaced circular array

**Design & application guidance**

Nail size (D1)	Loadability (Weld)	Compatibility	Accessory
3	<p>Max. tensile load (kN) 3.0</p> <p>Weld load limit (WLL):</p> <p><i>To avoid failure of the bigHead product, do not exceed stated loadability limit.</i></p> <p><i>bigHead is not liable for failures arising from excessive tensile loading of their products.</i></p>	<p>Recommended mating spring clip type S3-3</p>	<p>Nail cap 3MMNAILTIP</p>

**Please contact bigHead for further guidance if you are unsure about these topics.**
